

NETWORK ACADEMY COURSES

January to April 2012

Course Title		
<p>Fundamentals of Windows Server 2008 (6420) The purpose of this 5-day course is to teach students the basic fundamentals of networking, security, and server administration with Windows Server 2008. It is intended to provide the foundational knowledge needed to prepare for the Microsoft Technology Associate (MTA) exams and begin building a career in Microsoft technologies. http://www.microsoft.com/learning/en/us/course.aspx?ID=6420b</p>	Price	£590
	Days	Mon-Fri (ALSO available on an evening for 12 weeks - enquire)
	Dates	16 th -20 th January 2012
	Time	9:30-17:00
<p>Configuring and Troubleshooting a Windows Server 2008 Network Infrastructure (6421) This five-day instructor-led course provides students with the knowledge and skills to configure and troubleshoot a Windows Server 2008 network infrastructure. Students will learn to implement and configure secure network access and implement fault tolerant storage technologies. Students will gain an understanding of the network technologies most commonly used with Windows Server 2008 and IP-enabled networks. Students will also learn how to secure servers and maintain update compliance. Students will be expected to have completed Microsoft course 6420 or have equivalent knowledge. http://www.microsoft.com/learning/en/us/course.aspx?ID=6421a Leading to MCTS Exam 70-642 (exam fees not included)</p>	Price	£590
	Days	Mon-Fri
	Dates	6 th -10 th February 2012
	Time	9:30-17:00
<p>Configuring and Troubleshooting Windows Server 2008 Active Directory Domain Services (6425) This five-day instructor-led course provides students with the knowledge and skills to configure Active Directory Domain Services in a distributed environment, implement Group Policies, perform backup and restore, and monitor and troubleshoot Active Directory related issues. This course and 6426 will prepare you for the 70-640 exam. http://www.microsoft.com/learning/en/us/Course.aspx?ID=6425B Leading to MCTS Exam 70-640 (exam fees not included)</p>	Price	£590
	Days	Mon-Fri
	Dates	27 th February – 2 nd March 2012
	Time	9:30-17:00
<p>Configuring and Troubleshooting Identity and Access Solutions with Windows Server 2008 Active Directory (6426) This three-day instructor-led course provides the knowledge and skills that IT Professionals need to configure identity and access solutions with Windows Server 2008 Active Directory. Students will be expected to have completed Microsoft course 6425 or have equivalent knowledge. http://www.microsoft.com/learning/en/us/Course.aspx?ID=6426B</p>	Price	£380
	Days	Weds - Fri
	Dates	28 th -30 th March 2012
	Time	9:30-17:00

Limited places available.....To book please contact Business Liaison

NETWORK ACADEMY COURSES

January to April 2012

Course Title		
<p>ITIL Foundation Course This three-day instructor-led course provides students with the knowledge and skills to have a basic overview of the IT Infrastructure Library. The course will prepare for the foundation exam. http://www.bcs.org/category/11275 Leading to the ITIL Foundation Exam (exam fees not included)</p>	Price	£380
	Days	Tues - Thurs
	Dates	3 rd April – 5 th April 2012
	Time	9:30-17:00
<p>Installing and Configuring Windows 7 Client (6292) This three-day instructor-led course is intended for IT professionals who are interested in expanding their knowledge base and technical skills about Windows 7 Client. In this course, students learn how to install, upgrade, and migrate to Windows 7 client. Students then configure Windows 7 client for network connectivity, security, maintenance, and mobile computing. http://www.microsoft.com/learning/en/us/Course.aspx?ID=6292A Leading to MCTS Exam 70-680 (exam fees not included)</p>	Price	£380
	Days	Weds - Fri
	Dates	11 th -13 th April 2012
	Time	9:30-17:00
<p>Planning and Managing Windows 7 Desktop Deployments and Environments (6294A) This five-day instructor-led course is intended for desktop administrators who want to specialize in desktop deployment, configuration, and management. In this course, students will learn how to plan and deploy Windows 7 desktops. They will also learn how to design, configure, and manage the Windows 7 client environment. http://www.microsoft.com/learning/en/us/Course.aspx?ID=6294A Leading to MCP exams 70-686 (exam fees not included)</p>	Price	£590
	Days	TBA
	Dates	TBA
	Time	9:30-17:00
<p>Automating Administration with Windows PowerShell 2.0 (10325) This course provides students with the knowledge and skills to utilize Windows PowerShell for administering and automating administration of Windows based servers. It is intended for IT Professionals already experienced in general Windows Server and Windows Client administration, including Active Directory administration. No prior experience with any version of Windows PowerShell, or any scripting language, is assumed http://www.microsoft.com/learning/en/us/Course.aspx?ID=10325a&locale=en-us</p>	Price	£590
	Days	TBA
	Dates	TBA

NETWORK ACADEMY COURSES

January to April 2012

Course Title			
<p>Planning for Windows Server 2008 Servers (6430)</p> <p>This 3-day course is intended for IT pros who are interested in the knowledge and skills necessary to plan a Windows Server 2008 operating system infrastructure. This course is aimed at server administrators and is not a “how-to” course; therefore, it has a significant number of planning exercises with less focus on hands-on exercises than some courses. The course content and exercises direct you toward making decisions and providing guidance to others. This course reflects the decision-making tasks that a server administrator undertakes.</p> <p>http://www.microsoft.com/learning/en/us/course.aspx?ID=6430b Leading to MCTS Exam 70-646 (exam fees not included)</p>	Price	£380	
	Days	TBA	
	Dates	TBA	
	Time	9:30-17:00	
<p>EC-Council -- Certified Ethical Hacking</p> <p>The CEH Program certifies individuals in the specific network security discipline of Ethical Hacking from a vendor-neutral perspective. The Certified Ethical Hacker certification will fortify the application knowledge of security officers, auditors, security professionals, site administrators, and anyone who is concerned about the integrity of the network infrastructure.</p> <p>http://www.eccouncil.org/EC-Council%20Education/ceh-course-outline.htm</p>	Price	£1350 (Including CEH exam 312-50)	
	Days	Mon-Fri	
	Dates	30 th January – 3 rd February 2012	
	Time	9:30 – 17:00	
<p>EC-Council -- Certified Security Analyst/Licenced Penetration Tester</p> <p>The ECSA program is a highly interactive 5-day security class designed to teach Security Professionals the advanced uses of the available methodologies, tools and techniques required to perform comprehensive information security tests. Students will learn how to design, secure and test networks to protect <i>your organization</i> from the threats hackers and crackers pose. This class will help you perform the intensive assessments required to effectively identify and mitigate risks to the security of your infrastructure. As you learn to identify security problems, you also learn how to avoid and eliminate them, with the class providing <i>complete</i> coverage of hacking and network security-testing topics.</p> <p>http://www.eccouncil.org/ecsa.htm</p>	Price	£1450 (including Exam voucher)	
	Days	Mon-Fri	
	Dates	27 th February – 2 nd March 2012	
	Time	9:30 – 17:00	

Limited places available.....To book please contact Business Liaison

NETWORK ACADEMY COURSES

January to April 2012

Course Title		
<p>EC-Council – Computer Hacking Forensic Investigator</p> <p>Data is becoming increasingly one of the most important commodities a modern company has. Sometimes things go wrong with data and the consequences can be dire such as legal challenges, copyright breaches, stolen and destroyed data, illicit data being left on companies' servers and worse. If this happens forensics have to be applied to locate the breach and to take action. The Computer Hacking Forensics Investigator course (CHFI) will prepare the system administrator or legal investigator to do just that. A company operating in the 21st century cannot afford not to deploy these skills in a current network. The student will be introduced to tools and techniques to recover data, to trace hacking and illegal activities and to locate network security breaches.</p> <p>http://www.eccouncil.org/certification/computer_hacking_forensic_investigator.aspx</p>	Price	£1450 (including Exam voucher)
	Days	Mon-Fri
	Dates	12 th – 16 th March 2012
	Time	9:30 – 17:00
<p>An Introduction to Ethical Hacking</p> <p>This taster will enable the learner to determine whether they could benefit from taking the EC-Council -- Certified Ethical Hacking or Certified Security Analyst/Licensed Penetration Tester courses. It will use practical exercises to provide a taste of what the EC-Council Courses can provide.</p>	Price	£130 (refunded if enrolled on full CEH)
	Days	Wednesday
	Dates	18 th January 2012
	Time	9:30 – 17:00
<p>CCNA Exam preparation</p> <p>For experienced candidates wishing to prepare for the CCNA certification. Now addressing the 640-802 exam.</p>	Price	£480
	Days	Mon-Fri
	Dates	26 th – 30 th March 2012
	Time	9:30 – 17:00
<p>CCENT</p> <p>The CCENT or ICND1 CCNA course is the entry qualification to become a fully qualified Cisco engineer. The course will provide an introduction to aspiring engineers to the Networking fundamentals, basic switch and router configurations and wireless technologies. The course will prepare for the Cisco CCENT or ICND1 examination and is preparation for the CCNA Exam Preparation course. The CCENT exam is not included in the course fees.</p>	Price	£480
	Days	Mon-Fri
	Dates	TBA
	Time	9:30 – 17:00
<p>EC-Council Security 5</p> <p>This course is designed for knowledge workers and managers who are dealing with IT infrastructures and equipment without having an in depth understanding of security aspects of IT systems. The course will provide a basic introduction to IT security and only requires a very basic understanding of IT.</p>	Price	£580
	Days	Tue-Thur
	Dates	14 th -16 th February 2012
	Time	9:30 – 17:00

Limited places available.....To book please contact Business Liaison

NETWORK ACADEMY COURSES

January to April 2012

Course Title		
<p>EC-Council Network Security Administrator</p> <p>ENSA is a curriculum designed by the best in the field. Greater industry acceptance as seasoned Network Security professional. Learn to configure firewalls, intrusion detection systems and AV systems. Develop effective security policy in the company.</p>	Price	£890 (Includes exam 312-38)
	Days	Mon-Fri
	Dates	12 th – 16 th March 2012
	Time	9:30 – 17:00
	Price	£480
<p>CCNA Security</p> <p>With a CCNA Security certification, a network professional demonstrates the skills required to develop a security infrastructure, recognize threats and vulnerabilities to networks, and mitigate security threats. The CCNA Security curriculum emphasizes core security technologies, the installation, troubleshooting and monitoring of network devices to maintain integrity, confidentiality and availability of data and devices.</p>	Days	Mon-Fri
	Dates	12 th – 16 th March 2012
	Time	9:30 – 17:00
	Price	£890
	Days	5 over 3 weeks
<p>VMware vSphere: Install, Configure, Manage [V5]</p> <p>This hands-on training course explores installation, configuration, and management of VMware vSphere®, which consists of VMware ESXi™ and VMware vCenter Server™. The course is based on ESXi 5.0 and vCenter Server 5.0. Completion of this course satisfies the prerequisite for taking the VMware® Certified Professional 5 exam.</p>	Dates	16 th , 17 th , 23 rd , 24 th and 30 th January OR 12 th , 13 th , 19 th , 20 th , and 26 th March 2012
	Time	9:30 – 16:30
	Price	£190
	Days	Tues - Wed
	Dates	10 th -11 th January 2012
<p>Configuring Cisco Firewalls</p> <p>Learn how to configure Cisco Firewalls to secure your network from unauthorised access.</p>	Time	9:30 – 17:00

Limited places available.....To book please contact Business Liaison

Phone: 0113 386 1980

Web: www.networkacademy.co.uk

NETWORK ACADEMY COURSES

January to April 2012

Course Title		
<p>An Introduction to TCP/IP</p> <p>TCP/IP is a protocol which is used in almost every networked system. Essential knowledge and a thorough understanding of TCP/IP is a must for the contemporary Network Engineer.</p> <p>The course will introduce the Network Engineer to elementary aspects of the TCP/IP protocol such as: Private and Public IP Addresses; Host and Network Portion of an IP Address; The Subnet Mask and its function Classless IP addresses; CIDR Notation; Subnetting; DHCP; DNS and Designing an IP addressing scheme for a local network</p>	Price	£130 (reduced to £40.00 for students currently enrolled on our CCNA or IT Essentials course)
	Days	Tuesday
	Dates	20 th March 2012
	Time	9:30 – 17:00
<p>Getting Started With Linux: A Guide to CompTIA's Linux+ and LPI's LPIC-1</p> <p>This course is designed for people who would like to start using Linux and aim to understand a little bit more than just the graphical user interface (GUI). It will take the Linux user to the nuts and bolts of the operating system by covering the following areas:</p> <ul style="list-style-type: none"> - Linux Basics and installation - Using the Linux Desktop and utilising Help Resources - The YaST Management Utility - Managing Directories and Files. - Working with the Linux Shell and Text Editor. - Using the Command Line Interface to Administer the System - The purpose of Processes, Jobs and Runlevels in the Linux System. - Managing the Network Configuration such as DNS, File, Print Services, NIS, Mail and xinetd. - Managing Security and Hardware Basics 	Price	£TBA
	Days	Mon-Fri
	Dates	TBA
	Time	9:30 – 17:00
<p>VMware vSphere: Install, Configure, Manage [V5] (EVENING)</p> <p>This hands-on training course explores installation, configuration, and management of VMware vSphere®, which consists of VMware ESXi™ and VMware vCenter Server™. The course is based on ESXi 5.0 and vCenter Server 5.0. Completion of this course satisfies the prerequisite for taking the VMware® Certified Professional 5 exam.</p>	Price	£890
	Days	Tuesday Evenings
	Dates	Starting 10 th January 2012 (10 Sessions)
	Time	18:00 – 21:00

NETWORK ACADEMY COURSES

January to April 2012

Course Title		Price	Days	Dates	Time	
Cisco CCNA (Exploration) Semester 1 – Networking Fundamentals http://www.cisco.com/web/learning/netacad/downloads/pdf/CCNAexplorationDS.pdf Course duration 12weeks		£330	Tuesday or Wednesday	Evenings	Starting w/c 9 th January 2012	
					18:00 – 21:00	
	Cisco CCNA (Exploration) Semester 2 – Routing Protocols and Concepts http://www.cisco.com/web/learning/netacad/downloads/pdf/CCNAexplorationDS.pdf Course duration 12weeks		£330	Monday or Thursday	Evenings	Starting w/c 9 th January 2012
						18:00 – 21:00
Cisco CCNA (Exploration) Semester 3 – LAN Switching and Wireless http://www.cisco.com/web/learning/netacad/downloads/pdf/CCNAexplorationDS.pdf Course duration 12weeks			£330	Thursday	Evenings	Starting w/c 9 th January 2012
						18:00 – 21:00
	Cisco CCNA (Exploration) Semester 4 – Accessing the WAN http://www.cisco.com/web/learning/netacad/downloads/pdf/CCNAexplorationDS.pdf Course duration 12weeks		£330	Monday	Evenings	Starting w/c 9 th January 2012
						18:00 – 21:00
Cisco CCNP Courses http://www.cisco.com/web/learning/netacad/downloads/pdf/CCNPds.pdf TShoot course has a duration of 15 weeks Route has a duration of 18 Weeks CCNP Switch is also offered as consolidated full time course (Please contact for details)			£450 TShoot £490 Route (excludes Courseware)	Monday (TShoot) or Wednesday	(Route) Evenings	Starting w/c 9 th January 2012
						18:00 – 21:00
	IT Essentials: PC Hardware and Software This curriculum prepares for the CompTIA A+ certification. http://www.cisco.com/web/learning/netacad/course_catalog/IT1.html Course duration 12 weeks		£290	Tuesday or Thursday	Evenings	Starting w/c 9 th January 2012
						18:00 – 21:00
Fundamentals of Windows Server 2008 (6420B) – (replacing Server+ prep course) The purpose of this 5-day course is to teach students the basic fundamentals of networking, security, and server administration with Windows Server 2008. It is intended to provide the foundational knowledge needed to prepare for the Microsoft Technology Associate (MTA) exams and begin building a career in Microsoft technologies. This Course also helps to prepare the learner for the CompTIA Server+ exam. http://www.microsoft.com/learning/en/us/course.aspx?ID=6420b			£590 (includes Courseware)	TBA	Evenings (12 weeks)	Tba
						18:00 – 21:00

Limited places available.....To book please contact Business Liaison

NETWORK ACADEMY COURSES

January to April 2012

<p>EC-Council Certified Ethical Hacking (CEH) Academia</p> <p>CEH Academia is the online version of the EC-Council Certified Ethical Hacking course. The course has the same content as the 5 day EC Council course but it will allow you to study the materials in a time frame of up to one year. You will have an online book to study all the EC-Council materials as well as online lectures. The course must be completed within one calendar year.</p>	Price	£890
	Days	One workshop per month
	Dates	1 year after enrolling on the course
	Time	18:00 – 21:00
<p>Implementing Quality of Service (QoS) Solutions on Cisco Routers</p> <p>This course is a 1 day hands-on course designed to familiarise network engineers with the challenges of converged networks and implementing Quality of Service (QoS) solutions on Cisco routers.</p>	Price	£130
	Days	Friday
	Dates	23 rd March 2012
	Time	9:30 – 17:00

Limited places available.....To book please contact Business Liaison

Phone: 0113 386 1980

Email: networkacademy@leedscitycollege.ac.uk

Web: www.networkacademy.co.uk

Note:
We do offer a range of 1 day long courses:

- Using Bluetooth to advertise to mobile phones
- Implementing wireless networks (WiFi Technologies)
- Introduction to TCP/IP
- Basic PC maintenance and Internet Access
- IT Support and Help Desk training
- Introduction to Linux
- Bespoke training
- Introduction to Ethical Hacking
- Introduction to Dynamic Routing on Cisco routers
- PC Assembly and OS Installation
- Introduction to Virtualisation

Please contact us with your particular training requirements!
