

Course Title		
<p>Fundamentals of Windows Server 2008 (6420) The purpose of this 5-day course is to teach students the basic fundamentals of networking, security, and server administration with Windows Server 2008. It is intended to provide the foundational knowledge needed to prepare for the Microsoft Technology Associate (MTA) exams and begin building a career in Microsoft technologies. http://www.microsoft.com/learning/en/us/course.aspx?ID=6420b</p>	Price to Learner	£350 (includes Courseware)
	Days	Mon-Fri ALSO Thursday Evenings (12 weeks)
	Dates	29 Nov – 3 Dec 2010
	Time	9:30-17:00
<p>Configuring and Troubleshooting a Windows Server 2008 Network Infrastructure (6421) This five-day instructor-led course provides students with the knowledge and skills to configure and troubleshoot a Windows Server 2008 network infrastructure. Students will learn to implement and configure secure network access and implement fault tolerant storage technologies. Students will gain an understanding of the network technologies most commonly used with Windows Server 2008 and IP-enabled networks. Students will also learn how to secure servers and maintain update compliance. Students will be expected to have completed Microsoft course 6420 or have equivalent knowledge. http://www.microsoft.com/learning/en/us/course.aspx?ID=6421a Leading to MCTS Exam 70-642 (exam fees not included)</p>	Price to Learner	£350 (includes Courseware)
	Days	Mon-Fri
	Dates	25 – 29 October 2010
	Time	9:30-17:00
<p>Configuring and Troubleshooting Windows Server 2008 Active Directory Domain Services (6425) This five-day instructor-led course provides students with the knowledge and skills to configure Active Directory Domain Services in a distributed environment, implement Group Policies, perform backup and restore, and monitor and troubleshoot Active Directory related issues. This course and 6426 will prepare you for the 70-640 exam. http://www.microsoft.com/learning/en/us/Course.aspx?ID=6425B Leading to MCTS Exam 70-640 (exam fees not included)</p>	Price to Learner	£350 (includes Courseware)
	Days	Mon-Fri
	Dates	13 – 17 September 2010
	Time	9:30-17:00
<p>Configuring and Troubleshooting Identity and Access Solutions with Windows Server 2008 Active Directory (6426) This three-day instructor-led course provides the knowledge and skills that IT Professionals need to configure identity and access solutions with Windows Server 2008 Active Directory. Students will be expected to have completed Microsoft course 6425 or have equivalent knowledge. http://www.microsoft.com/learning/en/us/Course.aspx?ID=6426B</p>	Price to Learner	£295 (includes Courseware)
	Days	Tues - Thurs
	Dates	23-25 November 2010 (3 days)
	Time	9:30-17:00

Limited places available.....To book please contact Business Liaison

Phone: 0113 386 1828

Course Title		
<p>Microsoft Certified Desktop Support Technician (MCDST) on XP-Pro (2261/2262) http://www.microsoft.com/learning/en/us/course.aspx?ID=2261c http://www.microsoft.com/learning/en/us/course.aspx?ID=2262b Leading to MCP exams 70-271 & 70-272 (exam fees not included)</p>	Price to Learner	£350 (includes Courseware)
	Days	Mon-Fri
	Dates	4 – 8 October 2010
	Time	9:30-17:00
<p>Automating Administration with Windows PowerShell 2.0 (10325) This course provides students with the knowledge and skills to utilize Windows PowerShell for administering and automating administration of Windows based servers. It is intended for IT Professionals already experienced in general Windows Server and Windows Client administration, including Active Directory administration. No prior experience with any version of Windows PowerShell, or any scripting language, is assumed. http://www.microsoft.com/learning/en/us/Course.aspx?ID=10325a&locale=en-us</p>	Price to Learner	£350 (includes Courseware)
	Days	Mon-Fri
	Dates	8 – 12 November 2010
	Time	9:30-17:00
<p>Implementing and Managing Windows Server 2008 Hyper-V (6422) This three-day instructor-led course teaches students how to implement and manage Windows Server 2008 Hyper-V. It also teaches students how to manage Hyper-V with Solution Center Virtual Machine Manager (VMM) and with PowerShell. http://www.microsoft.com/learning/en/us/Course.aspx?ID=6422A</p>	Price to Learner	£295 (includes Courseware)
	Days	Mon-Wed
	Dates	12 th – 14 th July 2010
	Time	9:30-17:00
<p>Installing and Configuring Windows 7 Client (6292) This three-day instructor-led course is intended for IT professionals who are interested in expanding their knowledge base and technical skills about Windows 7 Client. In this course, students learn how to install, upgrade, and migrate to Windows 7 client. Students then configure Windows 7 client for network connectivity, security, maintenance, and mobile computing. http://www.microsoft.com/learning/en/us/Course.aspx?ID=6292A Leading to MCTS Exam 70-680 (exam fees not included)</p>	Price to Learner	£295 (includes Courseware)
	Days	3 days
	Dates	21 – 23 July and 28 - 30 September
	Time	9:30-17:00

Course Title		
<p>Planning and Managing Windows 7 Desktop Deployments and Environments (6294A) This five-day instructor-led course is intended for desktop administrators who want to specialize in desktop deployment, configuration, and management. In this course, students will learn how to plan and deploy Windows 7 desktops. They will also learn how to design, configure, and manage the Windows 7 client environment. http://www.microsoft.com/learning/en/us/Course.aspx?ID=6294A Leading to MCP exams 70-686 (exam fees not included)</p>	Price to Learner	£350 (includes Courseware)
	Days	Mon-Fri
	Dates	13 – 17 December 2010
	Time	9:30-17:00
<p>Planning for Windows Server 2008 Servers (6430) This 3-day course is intended for IT pros who are interested in the knowledge and skills necessary to plan a Windows Server 2008 operating system infrastructure. This course is aimed at server administrators and is not a “how-to” course; therefore, it has a significant number of planning exercises with less focus on hands-on exercises than some courses. The course content and exercises direct you toward making decisions and providing guidance to others. This course reflects the decision-making tasks that a server administrator undertakes. http://www.microsoft.com/learning/en/us/course.aspx?ID=6430b Leading to MCTS Exam 70-646 (exam fees not included)</p>	Price to Learner	£295 (includes Courseware)
	Days	Mon-Wed
	Dates	Please call for dates
	Time	9:30-17:00
<p>EC-Council -- Certified Ethical Hacking The CEH Program certifies individuals in the specific network security discipline of Ethical Hacking from a vendor-neutral perspective. The Certified Ethical Hacker certification will fortify the application knowledge of security officers, auditors, security professionals, site administrators, and anyone who is concerned about the integrity of the network infrastructure. http://www.eccouncil.org/EC-Council%20Education/ceh-course-outline.htm</p>	Price to Learner	£1,795 (Including CEH exam 312-50)
	Days	Mon-Fri
	Dates	25 – 29 October 2010
	Time	9:30 – 17:00
<p>EC-Council -- Certified Security Analyst/Licenced Penetration Tester The ECSA program is a highly interactive 5-day security class designed to teach Security Professionals the advanced uses of the available methodologies, tools and techniques required to perform comprehensive information security tests. Students will learn how to design, secure and test networks to protect <i>your organization</i> from the threats hackers and crackers pose. This class will help you perform the intensive assessments required to effectively identify and mitigate risks to the security of your infrastructure. As you learn to identify security problems, you also learn how to avoid and eliminate them, with the class providing <i>complete</i> coverage of hacking and network security-testing topics. http://www.eccouncil.org/ecsa.htm</p>	Price to Learner	£1,995 (including Exam voucher)
	Days	Mon-Fri
	Dates	15 – 19 November 2010
	Time	9:30 – 17:00

Limited places available.....To book please contact Business Liaison

Course Title		
<p>EC-Council – Computer Hacking Forensic Investigator</p> <p>Data is becoming increasingly one of the most important commodities a modern company has. Sometimes things go wrong with data and the consequences can be dire such as legal challenges, copyright breaches, stolen and destroyed data, illicit data being left on companies' servers and worse. If this happens forensics have to be applied to locate the breach and to take action. The Computer Hacking Forensics Investigator course (CHFI) will prepare the system administrator or legal investigator to do just that. A company operating in the 21st century cannot afford not to deploy these skills in a current network. The student will be introduced to tools and techniques to recover data, to trace hacking and illegal activities and to locate network security breaches.</p> <p>http://www.eccouncil.org/certification/computer_hacking_forensic_investigator.aspx</p>	Price to Learner	£1,995 (including Exam voucher)
	Days	Mon-Fri
	Dates	6 – 10 December 2010
	Time	9:30 – 17:00
<p>An Introduction to Ethical Hacking/Penetration Testing</p> <p>This taster will enable the learner to determine whether they could benefit from taking the EC-Council -- Certified Ethical Hacking or Certified Security Analyst/Licensed Penetration Tester courses. It will use practical exercises to provide a taste of what the EC-Council Courses can provide.</p>	Price to Learner	
	Days	Wednesday
	Dates	£25
	Time	9:30 – 17:00
<p>CCNA Exam preparation</p> <p>For experienced candidates wishing to prepare for the CCNA certification. Now addressing the 640-802 exam.</p>	Price to Learner	£525
	Days	Mon-Fri
	Dates	1 – 5 November 2010
	Time	9:30 – 17:00
<p>CCENT</p> <p>The CCENT or ICND1 CCNA course is the entry qualification to become a fully qualified Cisco engineer. The course will provide an introduction to aspiring engineers to the Networking fundamentals, basic switch and router configurations and wireless technologies. The course will prepare for the Cisco CCENT or ICND1 examination and is preparation for the CCNA Exam Preparation course. The CCENT exam is not included in the course fees.</p>	Price to Learner	£525
	Days	Mon-Fri
	Dates	27 Sept – 1 October 2010
	Time	9:30 – 17:00

Limited places available.....To book please contact Business Liaison

Course Title		
<p>CCNA Voice</p> <p>With a CCNA Voice certification a network professional demonstrates the required skill set for specialized job roles in voice technologies such as voice technologies administrator, voice engineer, and voice manager. It validates skills in VoIP technologies such as IP PBX, IP telephony, handset, call control, and voicemail solutions.</p>	Price to Learner	£525
	Days	Mon-Fri
	Dates	29 Nov – 3 December 2010
	Time	9:30 – 17:00
<p>CCNA Security</p> <p>With a CCNA Security certification, a network professional demonstrates the skills required to develop a security infrastructure, recognize threats and vulnerabilities to networks, and mitigate security threats. The CCNA Security curriculum emphasizes core security technologies, the installation, troubleshooting and monitoring of network devices to maintain integrity, confidentiality and availability of data and devices.</p>	Price to Learner	£525
	Days	Mon-Fri
	Dates	18 – 22 October 2010
	Time	9:30 – 17:00
<p>Implementing QoS Solutions on Cisco Routers</p> <p>This course is a 1day hands on course designed to familiarise network engineers with the challenges of converged networks and implementing Quality of Service (QoS) solutions on Cisco routers (QoS refers to the capability of a network to provide better service to selected network traffic over various technologies).</p>	Price to Learner	£125
	Days	Friday
	Dates	19 November 2010
	Time	9:30 – 17:00
<p>VMware vSphere: Install, Configure, Manage [V4]</p> <p>Designed for those new to virtualization, this hands-on training course covers all the skills you need to get started with VMware vSphere. It explores installation, configuration, and management of VMware® vSphere™, which consists of VMware ESXi/ESX™ and VMware vCenter™ Server. Upon completion of this course, you can take the examination to become a VMware Certified Professional. The course is based on ESXi 4.0, ESX 4.0, and vCenter Server 4.0</p>	Price to Learner	£525
	Days	4 days over 2 weeks
	Dates	8, 9, 15, 16 December 2010
	Time	9:30 – 17:00

Limited places available.....To book please contact Business Liaison

Course Title		
<p>An Introduction to TCP/IP TCP/IP is a protocol which is used in almost every networked system. Essential knowledge and a thorough understanding of TCP/IP is a must for the contemporary Network Engineer. The course will introduce the Network Engineer to elementary aspects of the TCP/IP protocol such as: Private and Public IP Addresses; Host and Network Portion of an IP Address; The Subnet Mask and it's function Classless IP addresses and Interdomain routing; CIDR Notation; Subnetting; DHCP; DNS and Designing an IP addressing scheme for a local network</p>	Price to Learner	£125 (reduced to £40.00 for students currently enrolled on our CCNA or IT Essentials course)
	Days	Friday
	Dates	26 November 2010
	Time	9:30 – 17:00
<p>Configuring the Cisco PIX Security Appliance Learn how to configure Cisco Firewalls to secure your network from unauthorised access.</p>	Price to Learner	£195
	Days	Mon - Tues
	Dates	15 – 16 November 2010
	Time	9:30 – 17:00
<p>Getting started with Linux: Novell's Guide to CompTIA's Linux+ (3060) This course is designed for people who would like to start using Linux and aim to understand a little bit more than just the graphical user interface (GUI). It will take the Linux user to the nuts and bolts of the operating system by covering the following areas: - Linux Basics and installation - Using the Linux Desktop and utilising Help Resources - The YaST Management Utility - Managing Directories and Files. - Working with the Linux Shell and Text Editor. - Using the Command Line Interface to Administer the System - The purpose of Processes, Jobs and Runlevels in the Linux System. - Managing the Network Configuration such as DNS, File, Print Services, NIS, Mail and xinetd. - Managing Security and Hardware Basics</p>	Price to Learner	£350
	Days	Mon-Fri
	Dates	11 – 15 October 2010
	Time	9:30 – 17:00

Course Title		
Cisco CCNA Semester 1 – Networking Fundamentals http://www.cisco.com/web/learning/netacad/downloads/pdf/CCNAexplorationDS.pdf Course duration 12/13 weeks	Price to Learner	£295
	Days	Monday & Wednesday Evenings
	Dates	Starting w/c 13 September 2010
	Time	17:45 – 21:15
Cisco CCNA Semester 2 – Routing Protocols and Concepts http://www.cisco.com/web/learning/netacad/downloads/pdf/CCNAexplorationDS.pdf Course duration 12/13 weeks	Price to Learner	£295
	Days	Tuesday Evenings
	Dates	Starting w/c 13 September 2010
	Time	17:45 – 21:15
Cisco CCNA Semester 3 – LAN Switching and Wireless http://www.cisco.com/web/learning/netacad/downloads/pdf/CCNAexplorationDS.pdf Course duration 12/13 weeks	Price to Learner	£295
	Days	Monday Evenings
	Dates	Starting w/c 13 September 2010
	Time	17:45 – 21:15
Cisco CCNA Semester 4 – Accessing the WAN http://www.cisco.com/web/learning/netacad/downloads/pdf/CCNAexplorationDS.pdf Course duration 12/13 weeks	Price to Learner	£295
	Days	Tuesday Evenings
	Dates	Starting w/c 13 September 2010
	Time	17:45 – 21:15
Cisco CCNP Courses http://www.cisco.com/web/learning/netacad/downloads/pdf/CCNPds.pdf Each course has a duration of 15 weeks	Price to Learner	£395 (excludes Courseware)
	Days	Monday & Wednesday Evenings
	Dates	Starting w/c 13 September 2010
	Time	17:45 – 21:15
Fundamentals of IT Essentials 1: PC Hardware and Software This curriculum prepares for the CompTIA A+ certification. http://www.cisco.com/web/learning/netacad/course_catalog/IT1.html Course duration 12/13 weeks	Price to Learner	£295
	Days	Thursday Evenings
	Dates	Starting w/c 13 September 2010
	Time	17:45 – 21:15
CompTIA Server + (replacing IT Essentials 2) The course focuses on server hardware and software and all issues related to running a server infrastructure in a professional industrial and business environment. Server configuration, BIOS, RAID, Backup Procedures, Disaster Recovery, virtualisation and many other aspects are discussed on the course. The course prepares for the CompTIA Server + examination. Prerequisites for the course are a good general understanding of PC hardware and software and some concept of troubleshooting operating systems. http://www.comptia.org/certifications/listed/server.aspx Course duration 12/13 weeks	Price to Learner	£295
	Days	Thursday Evenings
	Dates	Starting w/c 13 September 2010
	Time	17:45 – 21:15
